What do you want to take away from this retreat?

What are your take aways from the retreat so far?

Buffers are important

Trees

There's a lot of things that can be done

Larry is very long winded!

Funding is available. Just have to ask.

Partnerships and intersection of goals

Usc is flexible and the bomb

Opportunities

Utilize USC for funds and communicate with other organizations for assistance

42

What are your take aways from the retreat so far?

Funding information

There is a lot of money on the table

Connections with other partners

We're all part of the same larger group working towards a common goal

Use resources available

Larry is still long winded

Continue working together

Opportunities for Corp partnerships for funding

You all are doing a lot of great work.

42

What are your take aways from the retreat so far?

Reach out & be heard!

Listening to larry

Pick up the phone.

Communicate your needs. Take small steps. Ask for funding if you need it.

A better understanding of how USC collaborates with other agencies

Lots of opportunities

Everyone wants to fund buffers

Buffers are cool

We need to speak up

42

What are your take aways from the retreat so far?

There are a lot of opportunities that I wasn't aware of

Lots of money for different projects

More opportunity for collaboration

Work with partners

Partnership opportunities

How important we all are to each other through partnership

Streambank stabilization ideas

That USC is helpful across many counties and states with support, funding, design, and implementation for a variety of projects.

New partnership opportunities - updates on existing uses for the USC

42

What are your take aways from the retreat so far?

Mentimeter

BUFFERS ARE KING

There's a lot of opportunity to get more great work done!

Lots of opportunities

Multiple funding opportunities exist. I would like to see how to get these out of the USC. What are the funding avenues.

The amount of thingz the usc doze

New implementation ideas

speak up

Buffers: The Real MVP

Accomplishing more by working together

42

What are your take aways from the retreat so far?

Buffers

42

Where are your funding gaps?

Non ag buffers	Small farms/projects	Streambanks
Staff retention	Grasing	Technical assistance
Staffing	Funding for tree planting establishment and site prep	Project fixes

Mentimeter

39

Where are your funding gaps?

Mentimeter

We need more people resources.	Staffing	Material/labor costs
Implementation cost increases	Implementation stages of plans	Engineering
Project implementation	Staff	Staffing

39

Where are your funding gaps?

Staff	Staff	Engineer
People/employees	Green infrastructure	Low Estimates
Staff	Staff	We need more people resources

39

Where are your funding gaps?

Stafff	Staff raises	Staff
NoTillDrill	Stafff	Technical assistance
Events	Staff	Staff, but it needs to be multi year

39

Where are your funding gaps?

Gravel and dirt roads	Staff capacity	Big excavator
Money for staffing	Staff	Ditches/storm water
Stafff	Stream projects on non-ag land	Non ag buffers

Where are your funding gaps?

Small projects	Capacity	Stafff
Long term maintenance	Funding for manure storages	non ag buffers
Staffing	Stream bank stabilization projects	Finding community match for stream erosion stabilization projects.

39

Where are your funding gaps?
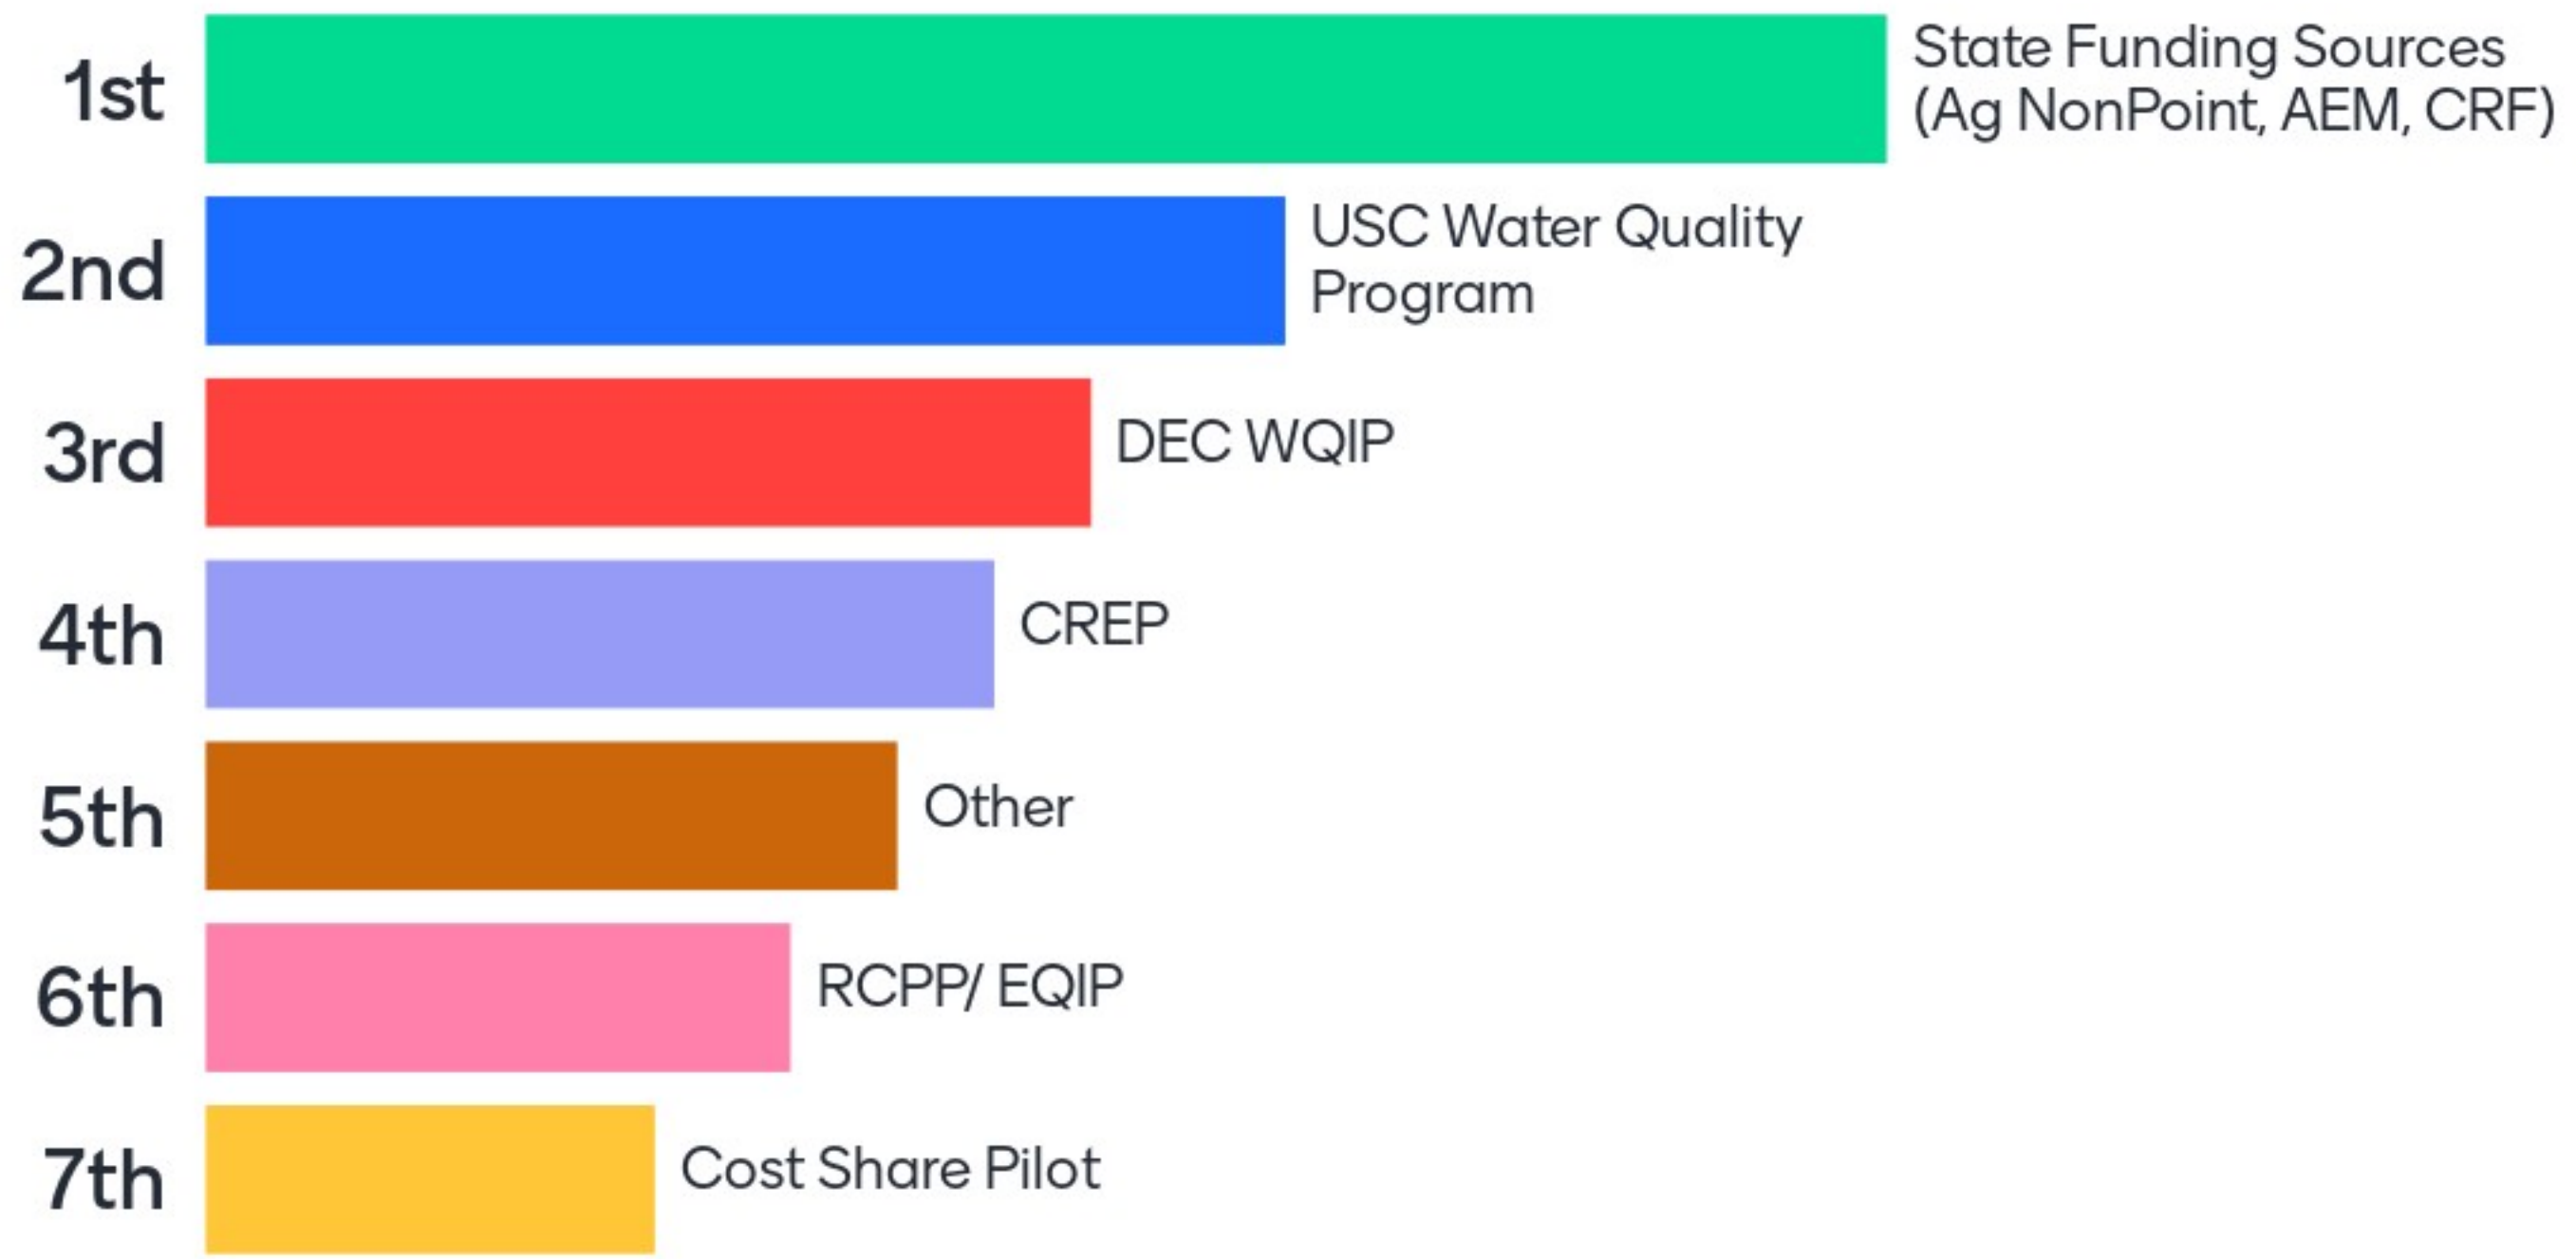

Capacity at districts

Maintenance

Projects related to trout streams and the need to address them. Funding for small farms and homes near streamsStaffing and engineering

Engineering

Grassing

What are your program priorities?

What should the USC's priorities be from your perspective?
