### Valley Profile

## Shapiro Reserve Restoration Opportunities

1' Contours and 2017 Aerial Photo

Prepared: 11/16/2022 by M.Y.

### Restoration Type

-  Riparian Forest Buffer - 1.0 Acre
-  Wetland Enhancement - 14.0 Acres
-  Honeysuckle Stands - 5.0 Acres

1 inch equals 211.5 feet

The background features a stylized, layered landscape in shades of light blue and green. At the top, a dragonfly is depicted in flight. Below it, a frog is shown in a jumping or swimming posture. The foreground is filled with silhouettes of reeds and marsh grasses. The overall aesthetic is clean and nature-oriented.
